If the customer didn't print/save their Registration ID, they can still find it out later by running the **License Manager program** on the PC where Capture Pro Software is installed. The Registration ID will be displayed towards the bottom of the License Manager dialog:

Trial Installations

During the installation, Registration continues to be required. If the customer has previously registered any Capture Pro installation and already has a **Registration ID**, they can enter their Registration ID when prompted and press the "Next" button to continue with the installation.
